

CEILING FAN COLLECTION

NORTH AMERICA **2024**

ABOUT BEACON LIGHTING AMERICA

Beacon Lighting America Inc. is considered one of the brightest lights in the international lighting and ceiling fan industry. As part of the renowned Beacon Lighting group, who has been Australia's largest lighting retailer for over 50 years, we have an unparalleled pedigree when it comes to offering superior quality products and service. Our global network gives us greater design experience and knowledge of the latest technology, earning us a reputation as innovators in lighting design and energy efficient solutions. With steady and continual growth, an ever-expanding product range and lighting representatives who are the leaders in their field, we are proud of what we stand for and the journey to get where we are today. Beacon Lighting America Inc offers you an extensive range of exciting, innovative, well-designed products that are proven strong sellers.

We provide:

- Product development
- Competitive pricing
- Easier sourcing solutions
- Low M.O.Q.s and fast delivery

OUR BRANDS

Fanaway is a revolutionary Australian design that has taken the world by storm. With one flick of the switch, Fanaway transforms from a sleek sophisticated, pendant light into an energy efficient ceiling fan. The secret lies in Fanaway's unique retractable blade technology. Turning the fan on creates a centrifugal force which deploys the distinctive blades to circulate air within a room. Switch it off, and the fan blades automatically retract and conceal, creating a clutter-free overhead environment. Hidden away, the blades accumulate less dust and offer an unobtrusive design aesthetic. Using superior quality materials and finishes, Fanaway sets a totally unique standard in form and function.

Awards

Lucci AIR

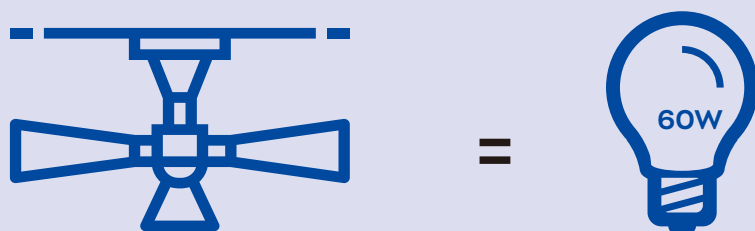

Lucci air is well known for it's great quality, with a heavy focus on technology and product development. The Lucci brand offers the latest on-trend designs, sourced from around the globe, to suit every style of home. The range offers great value with options for every budget.

Awards

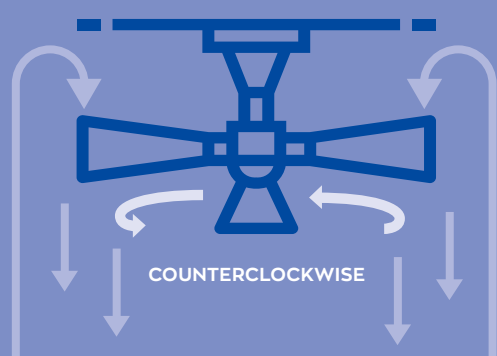

- Finder Retail Awards Winner-the best rated fan brand 2019

FAN FACTS

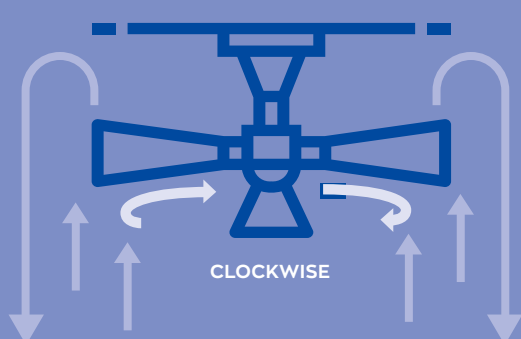

MOST CEILING FANS USE THE SAME AMOUNT OF POWER AS A **60 WATT LIGHT BULB** , WHICH COSTS ABOUT **1¢ PER HOUR*** TO RUN.

SUMMER

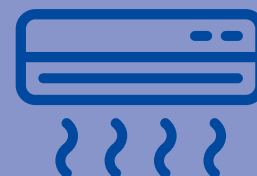

WINTER

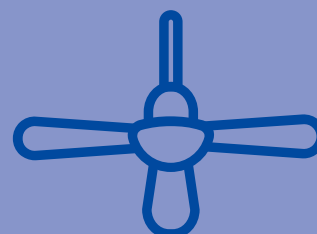

ALL BEACON LIGHTING AMERICA FANS ARE REVERSIBLE, MEANING THEY CAN BE CHANGED FROM **SUMMER MODE** TO **WINTER MODE** AT THE FLICK OF A SWITCH.

WINTER MODE CHANGES THE BLADE DIRECTION FROM COUNTERCLOCKWISE TO CLOCKWISE, PUSHING WARM AIR UP AGAINST THE CEILING AND DOWN THE WALLS, PROVEN TO REDUCE HEATING COSTS BY UP TO **10%***.

AIRCONDITIONING
2000+ WATTS*
ON AVERAGE TO RUN

+

=

UP TO **40%* SAVING** ON POWER COSTS. USE YOUR CEILING FAN TOGETHER WITH YOUR AIR CONDITIONER TO REDUCE YOUR AIR CONDITIONING BILL UP TO 40%.

LOWERS
TEMP BY
8° F
COOLER

YOU'LL FEEL UP TO **8°F COOLER**
FROM YOUR CEILING FAN'S
COOL BREEZE.

*The calculations on costs and savings are approximate only and may vary according to fan size and use of fan and the electricity provider.

SAVE MONEY, SAVE ENERGY

Ceiling fans keep you cooler in summer and warmer in winter using about as much power as a 60-watt light bulb, which costs only 2-3c per hour to run. Choose a fan with a DC motor, which uses 70% less energy than standard AC fans, and you'll reduce running costs to as little as 1c per hour.

CEILING FANS IN SUMMER

While a ceiling fan does not necessarily lower the temperature, it does make the room feel cooler by providing a circulatory breeze. Effective circulation can make you feel up to 8 degrees cooler and reduce air conditioning bills by up to 40%.

CEILING FANS IN WINTER

In the winter months, you should run your ceiling fan in the reverse mode. This pushes warm air up against the ceiling and then down the walls, gently re-circulating warm air through the room. This technique has been proven to lower heating costs by as much as 10%. The calculations on costs and savings are approximate only and may vary according to fan size and use of fan.

FAN SIZE RECOMMENDATIONS

Room Size	Fan Size
ft²	Inches
75 - 144	36 - 42
145 - 225	48
225 - 400	50 - 56
Above 400	60

Large Rooms – Living, family or master bedrooms need a fan with a blade size of 52 inches or larger to generate enough air flow. A small fan in a large room can make a space look unbalanced whereas a large fan can look overpowering in a small room.

Medium to Small rooms – For kitchens, dining rooms or kids bedrooms and offices you should choose a fan with a blade size of 48 inches or smaller.

CEILING FAN TIPS

CEILING HEIGHT

If you have high ceilings above the standard 8 feet, you may require an extension rod. Nearly all Beacon Lighting fans come with a ball canopy fixing method to the ceiling which means fans can be mounted on angled ceilings or flat ceilings. For all Beacon Lighting ceiling fans with ball canopy fixing you can order an optional downrod in multiple sizes to suit the height of your room.

RECOMMENDED INSTALLATION HEIGHT

Any ceiling fan should be at least 7 feet from the floor to the blades of the fan and at least 18 inches from the nearest wall.

ADDITIONAL SOURCE OF LIGHTING

If your fan will be replacing the main source of lighting in a room you will need to purchase a fan that has an integrated light fitting. Alternatively, most Beacon Lighting fans are light adaptable, so you can still retain your light source.

REMOTE CONTROLS

Have the convenience of being able to control the light and action of your fan from a remote control. All Beacon Lighting fans come with a remote control which means that when installing a fan into an existing junction box there is no need to run an extra wire to control the fan, as the remote does everything for you.

PRODUCT INFORMATION LABEL

Suitable for indoor area only.

Suitable for indoor, outdoor areas provided the fan is fully undercover with a minimum of 2 walls.

Fans must be positioned in a location protected from water, wind, dust and salt.

Suitable for indoor, outdoor and coastal areas. This fan is wet-rated and can be exposed to water.

Ceiling fans with energy saving DC Motor

WiFi enabled ceiling fan powered by Smart by Bond technology, which allows you to connect this device via WiFi to your preferred smart home system or download the latest Bond App to your smartphone. Compatible with Amazon Alexa & Google Home.
